*The essential
equipment behind our
customized systems*

▶ Equipped for Protection

▶ Effective Alarm

Our systems provide an immediate warning with a powerful interior siren.

▶ Detectors and Sensors

We offer sophisticated motion detectors and window/door contact sensors.

▶ Control Panel and Keypad

Includes control panel and reliable keypad that's as simple to use as your telephone.

▶ Wireless Systems

Wide use of wireless technology solutions for detection and communication.

▶ Key Chain Remote

With our key chain remote, you can arm or disarm your system from anywhere in your house.

▶ Installation and Instruction

Clean, professional installation and comprehensive operating training and instruction.

Your World Is Worth Protecting®

1324 S. Kansas Avenue
Topeka, KS 66612

What makes Protection One monitoring exceptional?

Precision Monitoring

▶ Technology Leader

We invest in high-tech facilities and equipment to quickly process signals from your security system in the event of intrusion, heat and smoke or environmental threats such as carbon monoxide.

▶ Skilled Personnel

Protection One operators receive an average of 120 hours of comprehensive training and must meet every stringent government licensing requirement before they are allowed to process Protection One alarm signals.

▶ Company Owned

We do not use third-party monitoring companies. Protection One monitoring centers are UL Listed, FM Approved and completely company owned, operated and maintained for superior quality control.

▶ Three Types Of Monitoring

We maintain different facilities each dedicated specifically to our varied customer base, including residential, commercial and multifamily.

▶ Triple The Protection

- Primary backup of major systems at main facility
- Secondary backup by our other large, networked facility
- Third level of backup by unique Disaster Recovery Center
